

SC-200

SWING TYPE CHECK VALVE**GENERAL FEATURES**

Check valves has several advantages such as improving safety, easy installing.

Check valves provide the flows just one way. When liquid flows through to flowing direction, check valves open and let it pass. But liquid tries to flow opposite direction of flowing, check valves close and prevent passing.

Connection:

Threaded

Nominal Diameter:

DN15 (1/2") - DN50 (2")

Pressure Range:

PN16

Working Temperature:

-10°C to 180°C

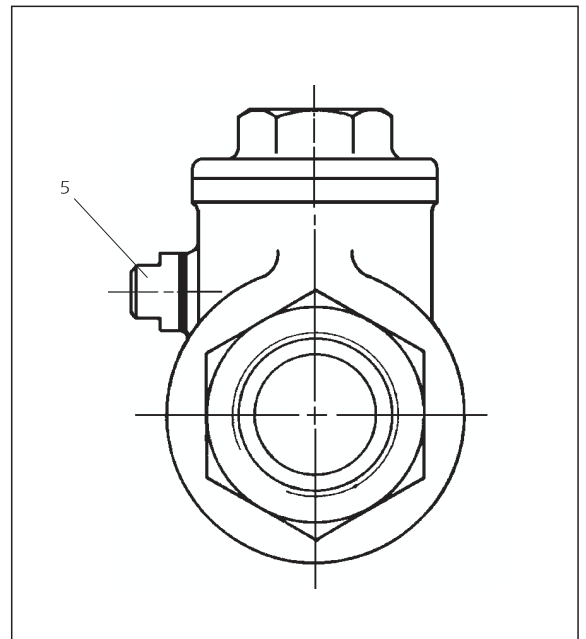

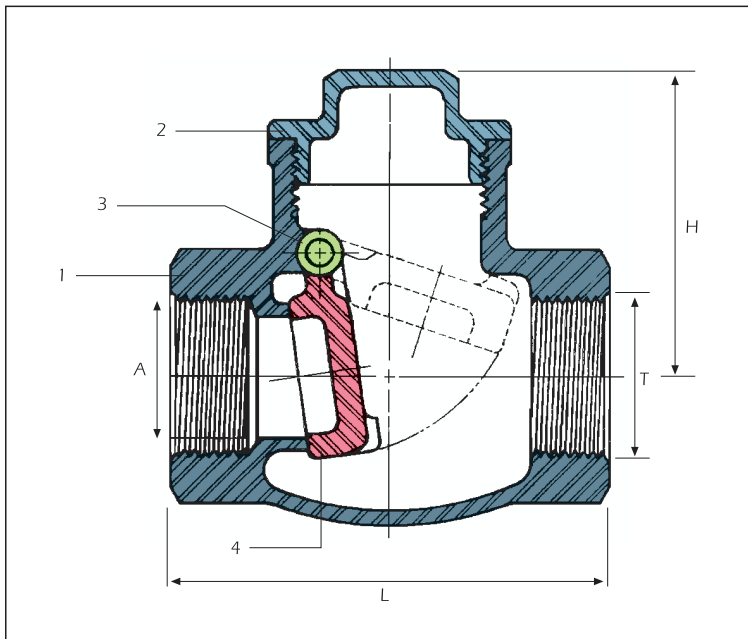

Typical Applications:

- Water and condensate lines
- Heating air-conditioning systems
- Waterworks
- Air pipelines
- Paper mills
- Plant processes
- Shipbuilding
- Vessel pipelines
- Mineral, oil industry
- Textile industry
